

Meet Fabiola Cervantes

“Every sacrifice has its reward” is the motto that encourages Fabiola Cervantes to move forward and accomplish new things in life!

Fabiola researched places to study for the

GED and decided to come to Helms College because the classes are small, 3 days per week, and offer individual tutoring. It took her 8 months between coming to class and studying diligently at home while working to obtain her GED.

After getting her GED, she returned to register for the Multi-Skilled Medical Assistant program in January 2022. Because English is her second language, some classes have been more difficult than others, but she was not afraid of facing them. As a result of her dedication and practice, she has improved her knowledge of the English language and pronunciations, honed-in her study skills and enjoyed the classroom interactions. At the end of August 2022, Fabiola was the recipient of Helms College Generations Scholarship. During her externship experience, she realized how much she enjoys working as a medical assistant.

Ms. Cervantes admits that working and studying at the same time is big challenge and takes a lot of time from family life, but she reminds herself that the sacrifices now will reap a reward at the end. She wants to show her children that commitment, hard work and perseverance will lead to success!
